Summary

Computer Science graduate passionate about front-end development and web design, with experience in building responsive, user-friendly, and visually engaging websites using modern web technologies. Skilled in creating clean and interactive user interfaces, with a strong interest in design, problem-solving, and developing effective digital experiences.

Education

Faculty of computer and Artificial intelligence | Fayoum University, Fayoum, Egypt (2021 - 2025)

Technical Skills

- | | | |
|----------------------|--|-------------------------|
| • Time management | • Programming Languages (C++, Python, HTML, CSS, JavaScript) | • Compiler construction |
| • Teamwork | | • Machine learning |
| • Project Management | • Bootstrap & Tailwind | • Parallel computation |
| • Problem Solving | • Web Development | • Embedded systems |
| • VS Code | • React-JS | • Data Structures |
| • Figma | | • Algorithms |

Projects

MediCare — Medical Booking Web Application

- Tech: React, React Router, Zustand, Axios, React Hook Form, Tailwind CSS, REST API (Retool)
- Objective: Built a responsive medical booking web application with doctor search and filtering, dynamic doctor details, appointment booking, profile management, and full appointment CRUD operations using React and REST APIs.

ShopHub — E-commerce Web Application

- Tech: React, Vite, Tailwind CSS, Shadcn/UI, React Router, Axios, Lucide React, DummyJSON API
- Objective: Built a responsive e-commerce application with dynamic product listings, product details, stock status, pagination, shopping cart management, and reusable UI components using React.

Nook — Online Bookstore Web Application

- Tech: HTML, CSS, JavaScript
- Objective: Built a responsive multi-page online bookstore with login, dynamic book listings, real-time search, reviews, and cart management using vanilla JavaScript.

Travilifa — Travel Landing Page Website

- Tech: HTML, CSS, JavaScript, Bootstrap
- Objective: Created a responsive travel landing page using Bootstrap to showcase destinations, features, pricing, and testimonials. Leveraged Bootstrap components and grid system for a clean, consistent layout and engaging UI, ensuring a seamless experience across devices.

Online Shopping Web Application

- Tech: Angular, Node.js, HTML, CSS, TypeScript

- Objective: Developed a responsive e-commerce web app with dynamic product browsing, navigation, and interactive UI using Angular components and data binding

Certifications and Experience

- ITI (Front End Web Development) July 2026
 - Client Side Technologies
 - EGMAScript – HTML5 – CSS3 – Bootstrap & Tailwind
 - React-JS
 - Generative AI – AI Agents & workflow Automation
- NTI(Web Designer) November 2025
 - HTML5 - CSS - JavaScript - Bootstrap
 - UI/UX design (Figma)
- ITI (Front End Web Development) July 2024
 - Front End Web Development using Angular
 - Client – side Technologies
 - ES.Next -HTML5- Bootstrap - Angular
- Itida – creativa – tiec - Fayoum University – Workshop October 2024
 - Introduction to Digital marketing
- AIRG (Artificial Intelligence Research Group) – Fayoum University August 2022
 - Embedded Systems
- NTI - Amazon Public Cloud (Online training) August 2022
 - General skills: communication skills, Interview skills, presentation skills, Leadership skills, teamwork skills, decision making and problem-solving skills, time management skills.
 - Freelancing skills, introduction to information security and privacy.
